Ceramic Low-voltage Mini Pendants

A19

beyond illumination

A-19 Introduces The Studio Collection

In sunny Southern California, the team of A-19, an artisan manufacturing company, has developed an enticing new line of ceramic low-voltage mini pendants. Bountiful light, exceptional hand-applied glazes and extended life set this product apart from the rest.

A-19's ceramic mini pendants are stylish and dramatic. They are perfect for emphasizing the magic of intimate areas in both public and private spaces. You'll love this ever evolving collection for use over Sushi Bars to highlighting the hippest, chicest kitchen islands. Our eye-catching designs will transform any space. The possibilities are limitless.

Ready To Hang

The pendants shown on the following pages include everything you need for installation.

- Beautiful hand-made ceramic shade with fired-on glaze finish
- 6' adjustable 250 degree coaxial cable
- Hang straight sleeve
- Socket set
- QDF Quick Jack connectors
- Mono-point dome canopy with an integrated 60W 12V electronic transformer ready to mount over a standard 4" junction box
- Brushed satin nickel finished hardware
- 50W cool beam MR16 lamp with protective lens (GY6.35 base)

At A-19 we offer you exclusive, hand-made art pieces that are superior in every detail. Our world class designs are created for life and good living. From the first pendant you hang, you will be delighted with the quality you've chosen.

Twine

LVMP01-SP Spice

LVMP01-SG Sagebrush

LVMP01-BT Butternut

In this piece each pattern has been individually hand-carved into the clay's surface before the first firing. A second glaze firing brings the engraved detail and round form to life.

5 1/2"w X 5"h

Realm

LVMP02-DB Desert Blaze

LVMP02-RF Rainforest

LVMP02-SP Spice

The illumination from the perforated border makes this smooth classic especially striking.

6"w X 6"h

Strata

LVMP03-WG White Gloss/Matte White

LVMP03-SP Spice

LVMP03-BG Black Gloss/Matte Black

Recessed horizontal bands add intrigue to this cylindrical pendant. Alternating stripes of flat and gloss glazes further enhance the tone-on-tone finishes (black & white).

3 1/4"w X 12"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Fossil

LVMP04-TN Tan

LVMP04-SG Sagebrush

LVMP04-RR Red Rock

Rich earthy glazes enhance the finely carved etchings in this slender cone-shaped pendant.

3 3/4"w X 8 3/4"h

Whirl

LVMP05-DB Desert Blaze

LVMP05-RF Rainforest

LVMP05-RR Red Rock

Three overlapping sections lend a sense of motion. Light radiating through vertical cut-outs heighten this design's dramatic impact.

7"w X 9"h

Crossroads

LVMP06-BG Black Gloss/Butternut

LVMP06-DB Desert Blaze/Red Rock

LVMP06-SP Spice/Sagebrush

Intersecting textured ribs and curves ingeniously adjoin smooth glossy surfaces. Each cylindrical pendant features two rich complimentary colors further enhancing the textural design.

3 1/4"w X 12"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Pilsner

LVMP07-BG Black Gloss

LVMP07-DB Desert Blaze

LVMP07-RR Red Rock

Sleek curves mimic a classic pilsner shape. A warm glow radiates through a line of perforations bordering this contemporary piece.

3 1/4"w X 8 1/4"h

Chambers

LVMP08-BT Butternut

LVMP08-DB Desert Blaze

LVMP08-RF Rainforest

Structural majesty and striking contours come together in a powerful piece. This pendant will play a prominent role in your décor.

5"w X 10 3/4"h

Raindance

LVMP09-BT Butternut

LVMP09-DB Desert Blaze

LVMP09-MB Matte Black

The hand-carved ribbed design and angled bottom add character to this cylindrical pendant. The organic hues glazes will compliment both contemporary and tropical settings.

3 1/4"w X 12"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Flora

LVMP10-SG Sagebrush

LVMP10-SP Spice

LVMP10-TN Tan

Overlapping petals convey a dreamy sense of motion.

This pendant is large enough to hang alone and will grace any setting with its charm.

6 1/2" w X 9" h

Stellar

LVMP11-MB Matte Black

LVMP11-RR Red Rock

LVMP11-TN Tan

Lined with perforations from top to bottom for spectacular light effects, this cylinder is a surefire attention getter.

3 1/4" w X 12" h

Vortex

LVMP12-PS Pistachio

LVMP12-BT Butternut

LVMP12-BG Black Gloss

Indentations wind around this little cone-shaped pendant, whose spiral form calls to mind a beehive.

5"w X 4 3/4"h

Venus

LVMP13-BT Butternut

LVMP13-MW Matte White

LVMP13-PS Pistachio

Inspired by nature's gourds, Venus hints at femininity with its smooth and shapely silhouette.

5 1/2"w X 6 1/2"h

Eiffel

LVMP14-BG Black Gloss w/ Dots

LVMP14-RF Rainforest

LVMP14-PS Pistachio

Slender and adaptable to many uses, this pendant boasts a sleek taper and comes in an interesting choice of finishes. The black version has a glossy finish with a raised dotted pattern.

4 1/2"w X 9"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Strands

LVMP15-MR Matador Red

LVMP15-TN Tan

LVMP15-WG White Gloss

Strands of black spun raised accent lines add interest to the simple shape of this mini pendant.

5"w X 5"h

Milano

LVMP16-MR Matador Red

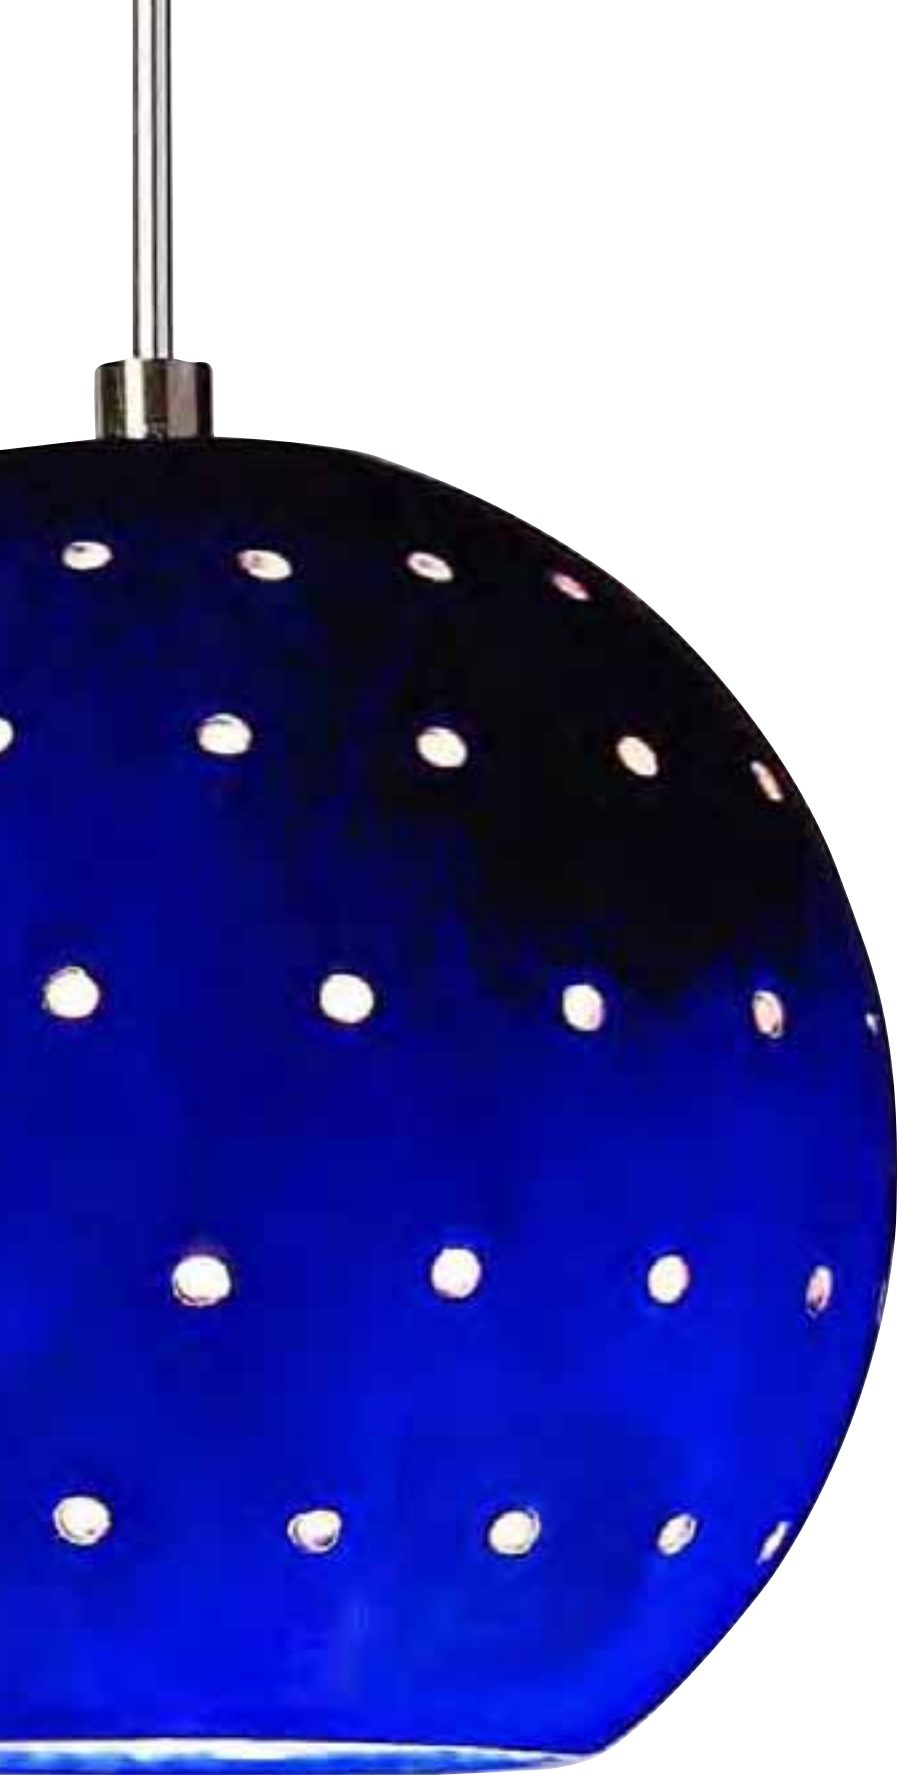

LVMP16-MB Matte Black

LVMP16-WG White Gloss

Appropriately named with its Italian inspired design, the hand-cut elliptical openings make an abstract statement. This pendant makes a natural conversation piece.

6 "w X 6"h

Lunar

LVMP17-MR Matador Red

LVMP17-WG White Gloss

LVMP17-CB Cobalt Blue

Create unique lunar accents with this round perforated pendant. If hung near a wall or backdrop, the light show will dazzle you.

5 1/2"w X 5"h

Wizard

LVMP18-MR Matador Red

LVMP18-CB Cobalt Blue

LVMP18-MB Matte Black

This magical cone shaped pendant is embedded with lustrous marbles that glow from within for a touch of enchantment.

3 3/4"w X 8 3/4"h

Amphora

LVMP19-WG White Gloss

LVMP19-CB Cobalt Blue

LVMP19-BG Black Gloss

The neck of this vessel shaped pendant is adorned with coiled aluminum wire, like jewelry on a goddess.

4"w X 9 1/4"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Bella

LVMP20-BG Black Gloss

LVMP20-FC Firecracker

LVMP20-SY Sunflower Yellow

Small, chic, and classic, this bell-shaped pendant is both decorative and functional. The deliberately minimal design showcases the beauty of the glazes.

6"w X 5"h

Twister

LVMP21-BG Black Gloss

LVMP21-FC Firecracker

LVMP21-WG White Gloss

This twisted rectangular pendant has an angular cut bottom. Exuberant color choices accentuate this modern style.

3 3/4"w X 11"h

Sake

LVMP22-MR Matador Red

LVMP22-TC Teal Crackle

LVMP22-WG White Gloss

Subtle, petite and sophisticated, this pendant is an ideal choice for a modernistic setting. In this instance, less really can be more!

3 3/4"w X 3 1/2"h

Magma

LVMP23-MR Matador Red

LVMP23-TC Teal Crackle

LVMP23-WC White Crackle

Shallow indentations and subtle irregular bulges make this rectangular pendant stand out.

3 1/2"w X 11"h

Flintstone

LVMP24-MR Matador Red

LVMP24-TC Teal Crackle

LVMP24-WG White Gloss

Flintstone is by far the most unusual hand-formed lighting fixture in our collection. The artist's love of ceramics is imprinted in the clay's surface. If you have the courage to hang this club shaped pendant, be prepared for in-depth discussion.

4"w X 16 1/2"h

For your convenience our pendants include everything needed for installation. To order without canopy, add "-X" to item #.

Mono-point Canopy

Included with pendants. To omit canopy, add "-X" to item #.

Simply plug-in the QDF Quick Jack connector supplied with your pendant and turn to lock in place. Our brushed nickel mono-point canopy includes an integrated 60W 12V electronic transformer and operates with a standard incandescent dimmer.

4 1/2"w X 1 3/4"h

3-point Round Canopy

LVC3R-BN

Clustering or creating a chandelier-style fixture is easy. Our brushed nickel 3-point canopy allows you to mount any three pendants to a single junction box, includes an integrated 150W 12V electronic transformer and operates with a standard incandescent dimmer.

7 1/2"w X 2 1/4"h

BT- Butternut

SB - Sagebrush

SP - Spice

DB - Desert Blaze

RF - Rainforest

RR - Red Rock

PS - Pistachio

TN - Tan

WG - White Gloss

MW - Matte White

BG - Black Gloss

MB - Matte Black

FC - Firecracker

SY - Sunflower Yellow

WC - White Crackle

TC - Teal Crackle

MR - Matador Red

CB - Cobalt Blue

Beauty and Ease of Installation

We want you to appreciate the beauty of our lighting fixtures and their ease of installation. For your convenience we package our pendants with a wide beam MR16 lamp, mono-point canopy with integrated 60W 12V electronic transformer and everything you need to mount to a standard 4" junction box.

Replacement lamps are readily available should you decide to adjust the beam spread for a specific installation.

We offer a 3-point round canopy option for hanging our pendants in a cluster configuration.

Our pendants can also be purchased separately for integration into your existing low-voltage system. Our QDF Quick Jack connectors (the components that attach the cable to the canopy) are also used by ALFA, LBL, WAC and TECH Lighting. Consult your lighting specialist for more details.

Fired-on Glaze Finishes

We have chosen an assortment of lead-free colored glazes to accentuate the shape and detail of each mini pendant. Should you desire a specific glaze that is not shown on your preferred style, simply let us know and we will customize your pendants for you.

*Actual patterns and colors may differ slightly from the samples shown. There will always be variation, which is typical of a hand-made product and contributes to its beauty. No two ceramic shades will be exactly alike.

The Mosaic Collection

With their fresh looks, vibrant colors, and distinctive style, the fixtures in our Mosaic Collection are sure to enliven any setting indoors or out.

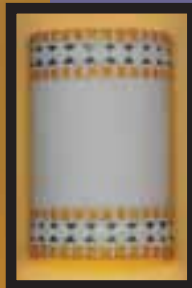

Our mosaic wall sconces and matching pendants are individually slip-cast and meticulously crafted through a series of delicate processes. The hand-applied glazes have a gloss and depth of color that no other medium can capture.

Our standard ceramic fixtures are UL listed for damp locations and are resistant to rust and corrosion. We offer incandescent outdoor/wet location and fluorescent options and our sconces with a depth of 4" or less are ADA compliant. Our pendants include 6 feet of cuttable white or black cord and a matching canopy.

The sconces shown in the following pages are open on the top and bottom and provide ambient up- and down-light. Closed-top, down-light only versions are available.

While each piece, because of subtle variations in the mosaic process, is already unique, we take pride in our ability to customize our wall sconces and pendants to suit your specific needs.

Every finish is hand-applied, making each item a unique piece of art. Our faux finishes begin with a tuff cross-linked acrylic foundation. Additionally, each piece is sealed with a clear coating adding durability. The interiors are white to reflect the maximum amount of light adding ambiance and appeal to any setting, indoors or out.

inspired by nature... individually hand-crafted

Realistically depicting natural materials, these fixtures are exclusively hand-made from ceramic and are resistant to corrosion and deterioration. They are UL-listed for damp-location, making them ideal for both indoor and outdoor use. Whenever there is a possibility that water may fall directly on top of or into our wall sconces, a wet-location option with a single outdoor socket is available. Regardless of your specific application, our lights are sure to enhance and enliven your décor.

The Jewel Collection

This collection features an array of stylish jewel toned fused-glass and ceramic sconces. Fused glass is created by joining layers of art glass through specialized kiln firing. The ceramic foundation is slip cast by hand, fired in our own kilns and finished in our satin white acrylic. (See page 49 for our selection of over 50 alternative colors and faux finishes.)

Our proudly American-made sconces are resistant to rust, suitable for both indoor and outdoor use, and are appropriate for incandescent and fluorescent applications.

While each piece, because of subtle variations in texture and coloration, is already unique, we take pride in our ability to create custom designs to suit your specific needs.

The Silhouette Collection

This collection highlights unique images reverse-painted by hand on a translucent white film and framed in ceramic. The effect is refreshing yet dramatic. The ceramic is slip cast by hand, fired in our own kilns, and finished in our satin white acrylic. (See page 49 for our selection of over 50 alternative colors and faux finishes.)

All of the wall sconces in the Silhouette Collection are ADA-compliant and accept energy-efficient fluorescent lamps. Compact fluorescent lamps use up to 76% less energy and last up to 13 times longer than incandescent lamps.

Light up your own design or logo! We take pride in our ability to create custom designs to suit your specific needs.

The Islands of Light Collection

MINORCA

MAJORCA

FORMENTERA

IBIZA

CABRERA

All of the fixtures in The Islands of Light Collection come in unfinished bisque unless otherwise specified. The standard bisque surface is beautiful in its natural state; however, to make your lights blend even more perfectly into your design scheme, you may easily paint them to match or contrast with the color of your walls or furnishings. Alternatively, we can paint your sconces and pendants in one of over 50 finishes. (See page 49 for our selection of colors, faux finishes, and decorations.)

SALINA

All our products, from beginning to end, are made in America. Our wall sconces and pendants are designed, molded, fired, sanded, finished, assembled, and shipped from our factory in California. Our products are made by hand with a careful eye to detail and craftsmanship.

Ceramic fixtures are versatile. For instance, we can provide the look of a corroded copper sconce without your having to worry about its deterioration over time. Because ceramic is resistant to rust and corrosion, our fixtures are appropriate for various environments, especially salty and moist ones.

We offer standard incandescent and energy-efficient fluorescent lighting options. Our standard fixtures are UL listed suitable for damp locations. They accept standard incandescent bulbs and, for areas that require more light, most accept medium-base, double-envelope halogen lamps. For energy efficiency, we offer high-power factor, electro-magnetic ballasts and sockets to accept compact fluorescent lamps.

All of our finishes are hand-applied. Our acrylic and faux finishes start with a durable cross-linked acrylic foundation. Additionally, each faux finish is sealed with clear cross-linked acrylic to protect the finish while maintaining a freshly-painted appearance. This durability of pigment, coupled with our extensive color selection, makes our acrylic and faux finishes the ideal choice for homeowners, decorators, and commercial builders. Custom colors and finishes are available upon request.

*Actual patterns and colors may vary slightly from the printed samples shown in this catalog. Because faux finishes are hand-applied, no two finishes are exactly alike.

Frequently Asked Questions

What is A-19?

We are a family-owned and operated lighting manufacturing company located in Ontario, California. My husband, Dave, and I take pride not only in our creative ceramic and glass products but also in our personal attention to our customers. Our philosophy is that we should take pleasure in the work we do and the people with whom we do it. We enjoy participating in every aspect of the business, from creating original designs to delivering our fixtures to you.

Why should I buy from A-19?

All our products, from beginning to end, are made in America. Our wall sconces and pendants are designed, molded, fired, sanded, finished, assembled, and shipped from our factory in California. Our products are made by hand with a careful eye to detail and craftsmanship. Moreover, we respect the impact of our business on the social and physical environment. Therefore, we hire locally, treat each employee like a member of our family, and promote education and creativity in our community. We also recycle our clay, filter the water we use before it leaves our factory, and use recycled boxes, bubble wrap, and office materials.

Do you have fixtures that suit my decor?

A-19 offers a variety of styles and finishes for our ambient lighting. We have styles and finishes that suit every type of decor, including Modern, Classic, Southwestern, Rustic, and Craftsman, among others. For example, you might choose our scalloped shell sconce with our blanco granite finish for your beachfront restaurant and you might choose our cylinder sconce with our buckskin leather finish and copper stitching for your mountain lodge.

What are the advantages of ceramic?

Ceramic fixtures are versatile. For instance, we can provide the look of a corroded copper sconce without your having to worry about its deterioration over time. Because ceramic is resistant to rust and corrosion, our fixtures are appropriate for various environments, especially salty and moist ones.

What lamping options does A-19 offer?

We offer standard incandescent and energy-efficient fluorescent lighting options. Our standard fixtures are supplied with medium-base sockets. They accept standard incandescent bulbs and, for areas that require more light, most accept medium-base, double-envelope halogen lamps. For energy efficiency, we offer high-power factor, electro-magnetic ballasts and sockets to accept compact fluorescent lamps.

When do I need to order wet-location fixtures?

Our standard damp-location fixtures are adequate for indoor and outdoor locations protected from water by an overhang or roof. Whenever there is a possibility that water, such as rain, may fall directly on top of or into the fixture, you must specify "WET" when you order. Wet-location fixtures with up-and-down light and/or perforations are wired with a single outdoor par socket. We recommend lamping with a shatter resistant "Tuff Skin" bulb. Most "downlights" are available with standard incandescent lamping for wet locations at no additional charge. (See "Outdoor/WET" lamping options.) All fixtures are UL-listed for damp locations unless otherwise specified.

Are A-19 fixtures ADA-compliant?

A-19 fixtures with a depth of 4" or less meet the handicap projection requirements set forth by the American Disabilities Act (ADA). Some of our styles are available in multiple sizes; if you require ADA-compliant fixtures, you must choose an item with a depth of 4" or less.

What are diffusers?

Normally, sconces are mounted above eye level so that the bulb and socket are not visible; however, in the instance that you may see down into your fixture, you may want to order a sconce with a diffuser. Diffusers are frosted lenses attached to the top of the fixture to conceal the view of the bulb. Diffusers are for cosmetic purposes; they do not protect the fixture from water. Diffusers are not sold separately.

Can I paint my fixtures?

Yes. If you would like to paint your fixtures, choose any style from the Islands of Light collection without specifying a finish. You will receive your fixture in unfinished bisque. You may easily paint bisque with any latex or acrylic paint. No primer is necessary unless you are using an oil-based paint.

How do I order my fixtures?

Once you have chosen the fixture that suits your needs, specify the item number, the option(s), and finish as in the following example: 208 - WET - S2.

What else could I need to know?

Lamps (bulbs) are not included.
Dimensions shown in this catalogue are approximate.
Please do not hesitate to call us if you have any other questions.
