RETROFIT SHADES

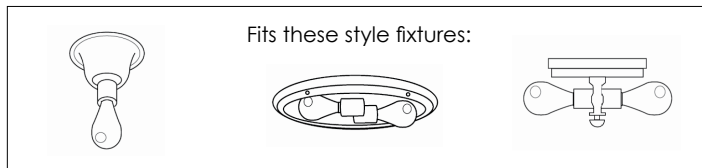

change light

Bored with your ceiling fixture? Make your room glow again with a new Fire Farm Lampshade!

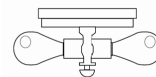

Ceiling Fixture Retrofit Lampshades come in a variety of flowing designs guaranteed to update any room for a fraction of the cost of purchasing a complete fixture and hiring an electrician to install it.

We provide a simple kit to adapt our shades to almost any size existing ceiling fixture.

Make a change!

Fits these style fixtures:

Please note these are shades only; for complete fixture also order OE-RETR.
 All fabric shades may be removed and dry cleaned. Flame retardant treatment is available for contract applications.

ABOUT

EMBRACE LIGHT

Fire Farm was started in 1991 by Adam Jackson Pollock and Benjamin Goldstone. Their passion for light developed from early experience with photography and experimental theater. They embraced this interest for light and began crafting lamps in Oakland, California. Ten years and many lamps later, Adam moved the factory to a new home in rural northeastern Iowa where production is currently headquartered.

SCULPT LIGHT

Under the creative and engineering direction of Adam Jackson Pollock, Fire Farm collaborates with designers, artists, interns, and its employees to nurture and develop new lighting solutions. Together they explore new materials and ideas with which to sculpt light. Fire Farm brings a wealth of knowledge and expertise to all its custom projects.

DEFINE LIGHT

Fire Farm makes lights to define space and create exciting environments. Our lamps make wonderful accent pieces and dramatic focal points for any room. We make light to live by, not just read by.

Fire Farm DISCOVER LIGHT

The unique and varied nature of Fire Farm lamps serves patrons with many different needs. You will encounter Fire Farm lighting in stores, restaurants, homes and hotels throughout the world. Discover Fire Farm and discover the beauty of light.
