helps you enhance
style and character
to the entrance
and surroundings
you call home.

CLASSIC EXTERIOR ACCENTS

*Discriminating Outdoor Lighting
and Accessories to Last a Lifetime.*

Hanover[®]
LANTERN
Handcrafted in the USA

Handcrafted in the USA

Nestled among the foothills of the Appalachian Mountains, the town of Hanover, Pennsylvania, is home to Hanover Lantern.

The area is known for its rich farmland, rolling hills, quaint small towns and quiet, peaceful lifestyle.

A prosperous and growing community, Hanover is blessed with a skilled workforce and a heritage of manufacturing innovation and excellence.

First Impressions

Hanover Lantern offers a comprehensive selection of classic lantern styles to complement virtually any architectural theme. A series of several sizes are available in each design style to add that finishing touch to your application. Complementing styles, sizes and finishes are virtually unlimited.

Finishing Touches with Lasting Quality

Designed to bring a consistent appearance to your home.

Wall Lighting

With numerous designs to choose from, Hanover Lantern has a style to compliment any architecture. Each series has multiple sizes and mounting options, so you can find the appropriate fixture for your application. With over 20 finishes to select from, we can beautifully integrate your exterior color scheme.

Post Lighting

Hanover Lantern offers an expansive line of posts and designer base wraps to compliment all of our lighting fixtures. Whether you use a single post outside your front entrance, or multiple posts to line your driveway, you will provide security as well as beauty to your property.

Pier Lighting

Create a dramatic entrance to your property with the use of our pier mounted fixtures. Hanover Lantern manufactures a wide range of models and sizes for any application.

Landscape Lighting

Enhance the beauty of your property after dark with Hanover Lantern's landscape lighting. Welcome your guests by painting your walks, steps and garden pathways with the radiant shimmer of our landscape fixtures. Create a focal point by uplighting an ornamental tree or wash a wall with the soft glow from a low voltage spotlight.

Mailboxes & Signs

Add a totally integrated look to your property with the addition of a sign or mailbox. We offer many standard cast aluminum signs in a variety of shapes and sizes. Our upscale mailboxes, available in your choice of any of our elegant hand applied finishes, are manufactured in a variety of configurations and sizes.

Fixture Sizing

The entrance to your home or property sets the style and mood of its owners. Choosing a fixture that is properly proportioned to its surroundings is critical. The following series of photographs are used to illustrate this point. Your local lighting showroom can offer expertise in helping you select the correct fixture for your application.

Choose the correct size **POST MOUNT Jamestown Series**

B2330

B9330

B9430

B30860

Most home centers offer only smaller sized outdoor lighting fixtures. The photographs above clearly illustrate the need for larger scale lighting fixtures. A small size lantern is not recommended for use on a 6' residential post, which looks best with a lantern 20" high or larger. Shown in Black Cherry finish.

Choose the correct size **PIER MOUNT Manor Series**

B2560

B4160

B5560

B6160

Manor Series is just one of many styles offered by Hanover Lantern in 4 different sizes. Shown here in a pier mount configuration on a 30" square pier, size and scale of the fixture to its environment is crucial. If you still have doubts or questions, your local lighting showroom can help. Photographed in Ironstone.

Choose the correct size **WALL MOUNT South Bend Series**

B512FRM

B514FRM

B516FRM

B516FSM

Consumers often make the mistake of selecting outdoor lighting fixtures that are too small. The photos above show different size fixtures of the same design in the identical installation. Let your eyes be the judge. One size does not fit all! Photographed in Verde Copper.

LANTERN INDEX

ORDER INFORMATION

FIXTURE DIMENSION CODE (in inches)

- H** - Overall Fixture Height
- W** - Lantern Width
- EXT** - Total Extension from Wall
- T/O** - Top of Lantern to Center of Outlet Box
- O/A** - Overall Height with Chain
- O/A** - Overall Height

Each Hanover Lantern lighting fixture and accessory is made to order. Since we offer so many variations in styles, colors, and accessories, please take special care when ordering, as **there is a 50% restocking charge on all returned items.** Please follow the sequence listed below to ensure your order is processed promptly and accurately.

① QUANTITY OF ITEM
 ② COMPLETE MODEL NUMBER
 ③ FINISH CODE (below)
 ④ GLASS OR ACRYLIC CODE (pg 68)
 ⑤ ACCESSORIES BY MODEL NUMBER

6 B13630 WBZ CBG 106

Please double check your orders and use COMPLETE model numbers. Lantern accessories must follow lantern order, post accessories must follow post order. If you have any questions or problems, please call our Customer Service department at the factory.

All Hanover Lantern fixtures are now finished with painted candle clusters and socket sleeves:

Fixture Finish/Color	Cluster & Sleeve Color
Black Cherry, Forest Green, Shadow Green, Architectural Bronze	Matte Black finish
Landscape Brown, Dark Bronze, Black & Brown	
Shadow Rust, Vintage Copper, Rustic Bronze & Ironstone	Terracotta finish
All Antique Finishes	Antique finish to match
Granite, White and Almond	Matching finish color

All fasteners are brass with a Black oxide coating except White and Almond finishes; supplied with Brass fasteners.

HELPFUL SIZING FOR AN OUTDOOR LANTERN

Selecting the correct size lantern can sometimes pose a challenge. Use the following guidelines to help determine what's best for your application.

The height of an outdoor lantern should be based on the height of the door.

When only one lantern is used at the door, it should measure approximately 1/3 the height of the door. The center of the lamp(s) should measure 66" above the threshold of the door.

When two lanterns are used at the door, they should measure approximately 1/4 the height of the door. The center of the lamp(s) should measure 66" above the threshold of the door.

Artisan

The Arts and Craft style of the Artisan Series offers clean straight line design featuring the style of a nostalgic standing seam Terne metal roof. Photographed in Vintage Copper and Antique Silver

RLM Lighting

RLM lighting fixtures have a long history behind them. They are most remembered for their generous presence in nostalgic train and bus stations as well as farmers markets and city store fronts.

They were and still are often used to highlight direction signage or to show off the vendors' goods and logo.

RLM form is clean and classic, offering many durable shades and mounting arm combinations.

ENERGY STAR

WHY BUY ENERGY STAR?

THE ENERGY STAR SOLUTION

- Use 1/4 the energy of traditional lighting.
- Long lamp life. 10,000 hours as compared to typical incandescent lamp life of 1,500 hours (requiring less maintenance).
- Simple plug in lamp.
- Convenient features such as photo controls for automatic daylight shut-off.
- Self ballasted socket is easily replaced without the use of tools.
- ETL listed.
- ENERGY STAR requires a one year warranty... Hanover Lantern offers a three year warranty, three times the industry standard.
