Collections

Point Claire™

Chrome Finish with White Fabric
Shades on Etched Glass

s692

Imagine you're sitting in a French-inspired bistro, and you'll get a taste of the style inspiration for the Point Claire Collection. White fabric shades sit atop generously sized and gently curving K9 Optical Crystal arms. Etched glass diffusers, underneath the shades, soften the light.

Liscomb™

Chrome Finish
with Brilliant Cut and
Polished Crystals

s702

Bring a dramatic focal point to any area of your home with the Liscomb Collection's stunning style. Cut and Polished Crystals* are held within stainless steel rings and illuminated by brilliant halogen points of light. Choose from a family of unique shapes – rounds, ovals and quarter spheres – and you'll have that striking centerpiece.

s748

Finishing touches abound in the Celestial Collection. Stylish fabric shades feature a "crinkled" effect that rest on an Umber Etched Glass Diffuser. These simulate true highlights and shadows with a graded amber tone. Stacked crystal spheres form the center column and are repeated as accents below. Faux marble finials drape to complete the look.

Whether you're trying to evoke the feeling of a mountain lodge – or recreate the scene of a favorite cabin getaway – the Candlebury Collection offers the perfect centerpiece. A rich, hand-applied Colton Bronze finish gives each fixture a woody, dark brown tone, and two shade choices allow you to personalize to the décor.

Legend / Symbol Guide

-  = This symbol indicates the product best suited for Indoor use with self-ballasted, compact fluorescent bulbs sold through distributors across the U.S.
-  = This symbol indicates the product best suited for Outdoor use with self-ballasted, compact fluorescent bulbs sold through distributors across the U.S.
- (C) = Candelabra based bulb (E-12).
- (C/K) = Candelabra based bulb (E-12) or Krypton candelabra based bulbs.
- (K) = Krypton candelabra based bulbs.
- (M) = Medium based bulb (E-26).
- (MNCN) = Mini-can based halogen bulbs.
- ✓ = Fixture requires supply wire rated for at least 75° C.
- ❖ = Fixture requires supply wire rated for at least 90° C.
- ☆ = When electrical connection is made inside the fixture, supply wire must be rated at least 75° C. When electrical connection is made in an outlet box, supply wire must be rated at least 60° C.
- ⓘ = Installation Instructions: Fixture must be supported independently of the outlet box unless the outlet box is UL listed for the weight to be supported. Consult a qualified electrician/installer. Required installation parts included.
- B. Hgt. = Body Height
- D = Diameter
- Ext. = Extension
- Fluor. = Fluorescent
- H = Height
- HCWO = Height from Center of Wall Opening
- Incand. = Incandescent
- L = Length
- Ovrl. H = Overall Height
- W = Width
- Wire (Chain) = Wire in excess of chain length.
Example: 19(72) = 19" of extra wire with 72" chain
-  = Many of the products in this catalog have the ENERGY STAR® logo. This identifies lighting that uses 2/3 less energy than conventional lighting and lasts 6- to 10-times longer. For more information, visit www.energystar.gov.
-  = Title 24 is a document that contains the building codes for the state of California. All lighting fixtures in this catalog that comply with the August 1, 2009 revision of the California Title 24 standards are marked with the T24 logo. For more information, visit www.energy.ca.gov/title24.
-  = Title 24 is a document that contains the building codes for the state of California. All lighting fixtures in this catalog that comply with the August 1, 2009 revision of the California Title 24 standards are marked with the T24 logo. For more information, visit www.energy.ca.gov/title24.
-  = ADA Compliant

-  = Photocell
-  = New Line Extension

- Bulbs not included unless otherwise noted.
- Wattages stated are the maximum recommended, however, you may use lower wattage bulbs to suit your lighting needs. Some recommended bulbs are not available in the maximum allowable wattage.
- All electrical products are rated as 120-volt, AC unless otherwise noted.
- All electrical products are certified and listed to UL/CSA/ETL Standards for use in U.S.A. and Canada except where noted.
- All products featured in the outdoor section are certified and listed to UL/CSA standards for wet location except where noted.
- All chain drop products equipped with at least 72" CH of chain.
- Many long life tungsten halogen capsule bulbs are now available as alternates to conventional incandescent light bulbs. The halogen capsule bulbs may be used to replace any bulb of a higher wattage, but not to exceed the existing specified maximum wattage, i.e., 72W may replace a 75W.
- On some products, in order to accommodate higher than normal ceiling height, extra lead wire is supplied and specified. With additional sections of chain (not included), this allows an added measure of design flexibility.
- Finishes for fixtures installed outdoors are subject to change due to prolonged exposure to sunlight, airborne pollutants and other forms of weathering.
- To serve you better, Kichler® Lighting reserves the right to make improvements to the products in this catalog. Therefore, some products may change during the life of the catalog and the product information contained in this catalog may also have changed.

We go to great lengths to assure the metal and glass finishes shown in the catalog match the actual products, but printing variations and variations in chemical finishes and the nature of hand applied finishing will cause some differences between the printed images and actual product, and from one product to another.

We use only non-ferrous materials on the exterior parts of our outdoor lantern products, and use the best available weather-resistant finishes. However, due to some extreme environmental conditions such as acid rain, salt air and ultraviolet exposure, we cannot guarantee our exterior finishes, with the exception of our LifeBrite™ lanterns.

Due to environmental conditions such as soil acidity, concrete alkalinity and other corrosive soil and air conditions, we cannot guarantee our direct burial posts.

Consumer Notice

Federal Legislation to phase out 100watt Incandescent Bulbs starting January 2012

The federal government enacted the *Energy Independence and Security Act of 2007* in December 2007, requiring all general-purpose light bulbs that produce 310–2600 lumens of light be 30% more energy efficient (similar to current halogen lamps) than current incandescent bulbs by 2012 to 2014. The efficiency standards will start with 100-watt bulbs in January 2012 and end with 40-watt bulbs in January 2014.

Light bulbs outside of this range are exempt from the restrictions (historically, less than 40 Watts or more than 150 Watts). Also exempt are several classes of specialty lights, including appliance lamps, rough service bulbs, 3-way, colored lamps, and plant lights.

By 2020, a second tier of restrictions would become effective; which requires all general-purpose bulbs to produce at least 45 lumens per watt (similar to current CFLs). Exempt from the Act are reflector flood, 3-way, candelabra, colored, and other specialty bulbs.

Many Governments worldwide have passed measures to prohibit the sale of incandescent light bulbs for general lighting. The aim is to encourage use of more energy efficient lighting alternatives, such as compact fluorescent lamp (CFLs) and LED lamps.

California Title 20

To comply with the California Title 20 regulations, all portable lamps shipped into California are assessed a charge per lamp, dependant upon the quantity and types of CFL bulbs required for the lamp. To learn more about California Title 20 regulations visit: www.energy.ca.gov/appliances/2008rulemaking/2008-AAER-1A/2008-08-29_Initial_Statement_of_Reasons_Part-A.pdf
For specific prices on portable lamps shipped into California please consult the latest version of a Kichler price sheet.
