*Maxim Lighting's Signature Collections embody beauty and sophistication with design features reflecting old world charm and modern-day elegance. Intricate details include highly polished metals, beveled crystals, hand-cut bobeches, and artisan-painted accents. These fixtures distinguish themselves in any showroom and create a focal point in any home, as each piece bends and curves in a graceful flow of artistry, casting warm light below. For those who demand more from their lighting than just lighting, the Signature Collections delivers unique, upscale styling for today's most elegant homes.*

# Paradise

In an exclusive design, bent, Beveled Crystal pairs with a highly Plated Silver finish in a fountain of eye-catching splendor. Our proprietary crystal mounting system and hand-cut bobeches, fonts, and canopy covers make the Paradise Collection one of a kind.

# Genoa

Inspired by old world artisans, the Genoa exhibits a combination of fine craftsmanship and attention to detail. From the boldness of the cast metal medallions to the fine intricacy of the hand-painted accents, this collection was designed for the finest of homes. The multi-step process of the Modello finish blends perfect tones of gold and browns in a mottled texture that adds depth and warmth. The included hand-painted crystals contrast beautifully with the finish and add graceful elegance. The Mocha Cloud glass found on some models casts a beautiful soft light in the room.

*Like fine art, traditional style lighting characterizes a home as a place of rich heritage and time-honored customs. Each piece stands alone as a decorative element in its own right, filling rooms with diffused warmth and subtle tones. Evoking images of elaborate European mansions or historic American homes, Maxim pairs elaborate globes, shades, and bases with classic finishes reminiscent of bygone eras. Chandeliers and pendants, sconces and table lamps all carry the unmistakable stamp of impeccable craftsmanship inherent in all Maxim products.*

# Hampton

Playfully regal, the Hampton's slender metalwork finished in Auburn Dusk swirls around a clear resin column that mirrors ambient lights and images. Each metallic vine dangles sparkling clear crystals that reflect light from a wreath of "candles."

# Dresden

With Old World charm, Dresden's Flemish metalwork in Filbert finish gracefully curves around a center column of translucent antique glass, and its amber crystal pendants and candle-like lamps warm the room. Choose classic A-line shades or frosted Ember glass.

*When traditional seems too antiquated and contemporary too stark, transitional style lighting finds an aesthetic middle ground that synthesizes the best of both worlds. Bold but classic materials like steel and iron curve into simple shapes and lines without falling into the trendy trap of extremism. The result: warmth and elegance without opulence, simplicity without starkness. The transitional style suits those who prefer the sophisticated and classy with a twist of nonconformity. Diverse and creative, Maxim's collection of transitional lighting fixtures defies labels and stereotypes, opening up a whole new world of style options.*

# Celeste

As much a sculpture as a lighting collection, Celeste's stunning laser-cut flat metal forms cleverly conceal the internal wire so all the eye sees is the graceful curves of the frame. The carved detail of the bobeches and caps adds an interesting contrast of style. Rustic Textured Terra finish and warm Ember glass round out the eclectic approach making this collection a perfect match for any design scheme.

# Bristol

Reminiscent of early America, this collection makes itself at home in today's classic style house. The Black Gold finish has the look and feel of naturally aged brass, and lends an air of authenticity to the collection. Contrasting Java Fog glass breathes life into art while casting a natural warm light below.

*Practical and efficient, contemporary lighting focuses on function and minimizes form. Simple task lighting gets a creative flair with Maxim's full line of contemporary fixtures that compliment today's streamlined home and office designs. Marbleized, frosted, and metallic effects add character to sleek lines in every pendant and sconce. Geometrical shapes of clear and colored crystal cast focused rays of light that illuminate space effectively and elegantly. In the contemporary kitchen, spacious areas and clean countertops call for discreet fixtures that won't detract from the beauty of simplicity. Maxim delivers the utmost in efficiency and ambience.*

# Aurora

Straight lines and curves make this contemporary series a classic. Square metal tubing finished in your choice of Oil Rubbed Bronze or Satin Nickel support tapered square Frost glass shades.

*For those who shrug off conventionality and opt for an eclectic design for hearth and home, the Maxim Expression Collections confidently fills the niche. From French Country charm to mystic Asian to old English woodsman, these fixtures reject the rules and blend together unusual materials to create unique show pieces certain to spark interest and conversation. No matter the theme or genre, these collections possess the uncanny ability to simultaneously fit in and stand out in any room.*

# French Country

For generations, the French have looked to their country's picturesque landscapes for inspiration when designing their homes. This family features a hand painted French Floral pattern on a soft white frame with complimentary design carried forward on the Country Cottage shades. The pendant and flush mount features Frost glass.

# Energy Saving Collections

*Those committed to preserving the world's natural resources appreciate Maxim's contemporary line of energy efficient lighting. Designed with conservation in mind, the Energy-Saving collection blends visionary ideals with practical action. Through efficient bulbs that minimize watt usage and innovative designs that optimize utilization, Maxim allows homeowners to go green without sacrificing style.*

# Illuminare

State of the art LED flush mount fixtures which can be installed on the ceiling or wall feature metal bases finished in Satin Nickel and heavy spun Frost glass shades. The light source incorporates LED technology featuring .075 watt diodes mounted on a circuit board. These boards have 50,000+ hour life expectancy and are replaceable.

- 50,000 Rated Life Hours

# Counter & Task Lighting

*Maxim Lighting's full line of under cabinet and task lighting cast the perfect light throughout the home. In kitchens, granite countertops sparkle under the direct beam and food preparation becomes safer and more enjoyable. In bathrooms and studies, they brighten the room with a warm indirect glow. They even eliminate unwanted shadows in wet bars, curio cabinets, and bookcases with sleek profiles that conceal so discreetly you will never see the source of the gentle light.*

# MX-L Series **COUNTERMAX™** LED Under Cabinet Lighting

This state-of-the-art LED light bar raises under cabinet lighting to a whole new level. The crisp white light illuminates without shadows, and its direct wire plug in and easy clip installation make it convenient as well as beautiful.

# Basic Star

# STARSTRAND™

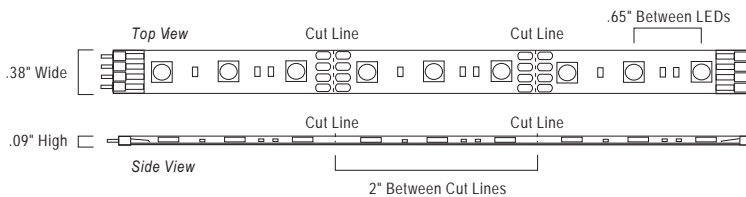

The most economical way to illuminate with LED, StarStrand™ Basic Star comes on a convenient reel and can be easily cut every two inches as needed.

A soldered power connector on the end of each reel, two additional power feeds, and a splicer for joining sections together round out the standard model, and additional power feeds and splicer are available. The minimum single run for Basic Star is 1' and the maximum is 33' (*Driver Requirements on Page 377*).

The copper PC board is backed with an adhesive 3M tape for easy installation.

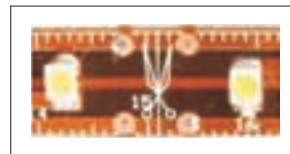

Model	Length	Diodes	Wattage	Lumens	Color Temp	CRI	PC Board	Beam	Current

# STARSTRAND™

## 60w Indoor Plug-In Driver 53275

- 120V/240V Input | 12V Output
- Includes one 72" output cord and one 72" power cord

## Power Cord with On/Off Switch 53252

## 3' Aluminum Channel 53254

- Creates valance to conceal tape
- Irregular surfaces installation
- Includes screws for installation

## 75w Indoor DirectWire Driver 53276

- 120V/240V Input | 12V Output
- Includes one 72" output cord

## Silicone End Cap 53269

- Placed on run termination
- Protects against dust and damage
- Package of 10

## Indoor Dimming Controller 53282

- Full range dimming & On/Off control
- RF remote control included
- 140w Max

## Replacement Remote 53292

## End Power Feed 53260

- Required if end is cut
- Package of 6
- Two included with 53200

## Tape Splicer 53261

- Joins two sections if tape is cut
- Package of 10
- One included with 53200

## Flexible Connector 53259

- Use for corners and angles
- Package of 6

## Indoor Connecting Cords 53265 3"

## 53266 7"

## 53267 13"

## 53268 73"

- Extend distance between driver and tape
- Connect sections of tape together

## Plastic Wire Clip 53255

- Used to secure Connecting Cords & driver output cords to surface
- Backed with 3M Adhesive tape
- Package of 10

## Male/Male Adapter 53262

- Changes female end to male
- Package of 10

## Rough In Terminal Block 53257 3"

- Rough in for new installations construction
- Female connector on one end, with 4 wire quick connector on opposite end

## 4-Way Connector 53263

- Allows for L, T & X installations
- A power block for branching
- Includes two 53264 and one 53262

## Heat Shrink Wrap 53256

- Secure connections when in walls
- Waterproof in damp location installations
- Heat gun required for installation

## Male End Cap 53264

- Use on female end of run termination
- Protects against dust and damage
- Package of 10

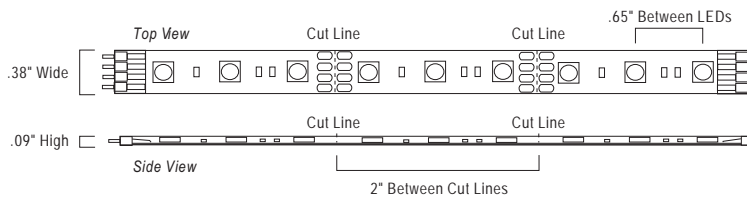

# Super Star

# STARSTRAND™

With over twice the lumen output of the basic tape, and the added benefit of it being covered in a pliable clear plastic, StarStrand™ Super Star, with StarChip™ technology, excels in performance and durability. The plastic cover keeps dust and dirt from landing directly on the board and makes keeping it clean easy. Super Star is available in pre-manufactured lengths with 4 pin connectors installed at each end for fast and sure installation. The minimum single run for Super Star is 1', and the maximum run is 50' (*Driver Requirements on Page 377*). The black PC board is backed with 3M adhesive tape for easy installation.

 • Extend distance between driver and tape  
 • Connect sections of tape together

**Mounting clip**  
**53272**  
 • Use on irregular surfaces when 3M tape is not sufficient  
 • Package of 20

**Male/Male Adapter**  
**53262**  
 • Changes female end to male  
 • Package of 10

**Heat Shrink Wrap**  
**53256**  
 • Secure Connections when in walls  
 • Waterproof in damp location installations  
 • Heat gun required for installation  
 • Package of 10

**4-Way Connector**  
**53263**  
 • Allows for L, T & X installations  
 • A power block for branching  
 • Includes two 53264 and one 53262

**Rough In Terminal Block**  
**53257 3"**  
 • Rough in for new installations construction  
 • Female connector on one end, with 4 wire quick connector on opposite end

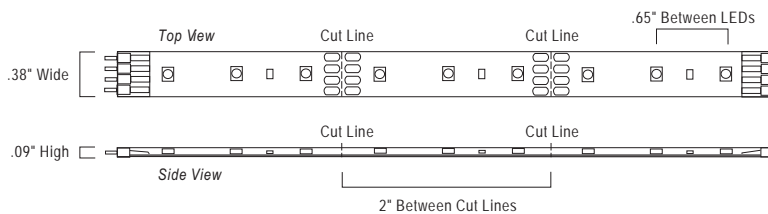

# Ultra Star

# STARSTRAND™

StarStrand™ Ultra Star, with StarChip™ technology, is for applications requiring additional light output. Ultra Star produces over 3 times the lumens of Basic Star and 50% more than Super Star. This product is also covered with a pliable plastic and features an easy to install 3M tape backed unique white PC board for ultimate light reflection. Ultra Star is available in pre-manufactured lengths with 4 pin connectors installed at each end for fast and sure installation. The minimum single run for Ultra Star is 1' and the maximum run is 32' (*Driver Requirements on Page 377*).

# Rainbow RGB Star

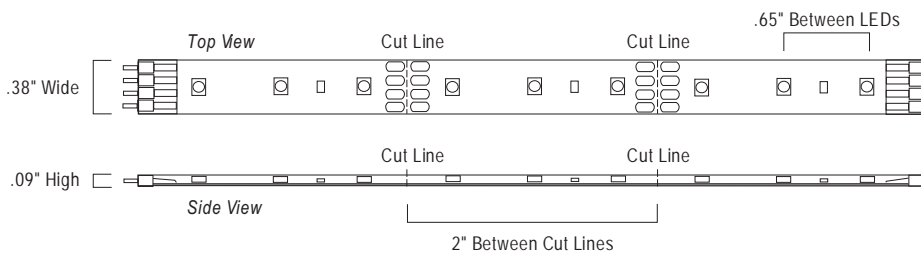

# STARSTRAND™

StarStrand™ Rainbow Star, with StarChip™ technology, includes the same construction and light output as Ultra Star with the addition of RGB color. With the optional controller, a rainbow of colors including white can be created- red, green, blue and any combination of the three-by remote control. Rainbow Star comes in pre-manufactured lengths with four pin connectors at each end for fast and sure installation. Minimum single run for Rainbow Star is 1', and maximum is 20' (*Driver Requirements on Page 377*). The white PC board is backed with 3M adhesive tape for easy installation.

# Aqua Star

# STARSTRAND™

For outdoor applications, StarStrand™ Aqua Star, with StarChip™ technology, comes completely surrounded by a pliable plastic coating for use in all weather conditions.

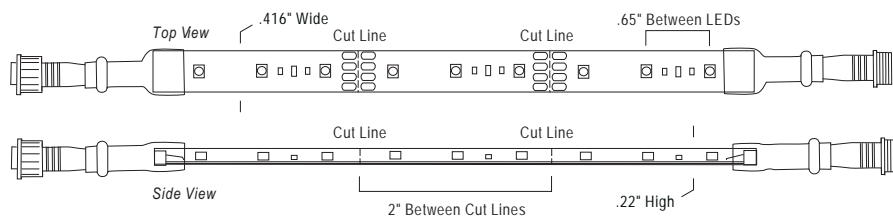

Pre-manufactured lengths with water-tight connectors at each end make Aqua Star safe to submerge under water.

The minimum single run for this strip is 1' and the maximum 20'.

The black PC board is backed with heavy duty adhesive 3M tape for easy installation.

Model	Length	Diodes	Wattage	Lumens	Color Temp	CRI	PC Board	Beam	Current

# Super Star 24

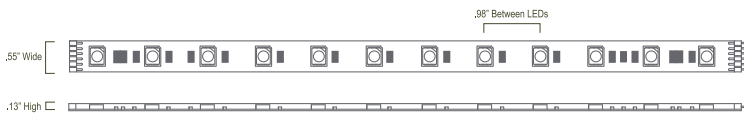

# STARSTRAND™

StarStrand™ Super Star 24, with StarChip™ technology, is destined to become the standard in LED tape. Covered in a pliable clear plastic, this product excels in performance and durability. The plastic cover keeps dust and dirt from landing directly on the board and makes keeping it clean a breeze. Super Star 24 is available in pre-manufactured lengths with 6 pin connectors installed at each end for fast and sure installation. The minimum single run for Super Star 24 is 5', and the maximum run is 150' (*Driver Requirements on Page 378*). The black PC board is backed with 3M adhesive tape for easy installation.

## 24V Direct Wire Drivers in Detail

Maxim Lighting's StarStrand Drivers are UL/TUV/CE approved, feature short circuit protection, overload protection, over voltage protection, 158° F high operating temperature, and 100% full load burn-in testing.

**StarStrand 24V 150w Direct Wire Driver  
53287**  
7.75" L x 3.75" W x 1.5" H

- 120V/240V input
- 24V, 6.5 Amp output
- Includes one 72" output cord

**Additional Output Cord  
53253**

**StarStrand 24V 320w Direct Wire Driver  
53288**  
8.5" L x 4.5" W x 2.25" H

- 120V/240V input
- 24V, 12.5 Amp output
- Includes two 72" output cords

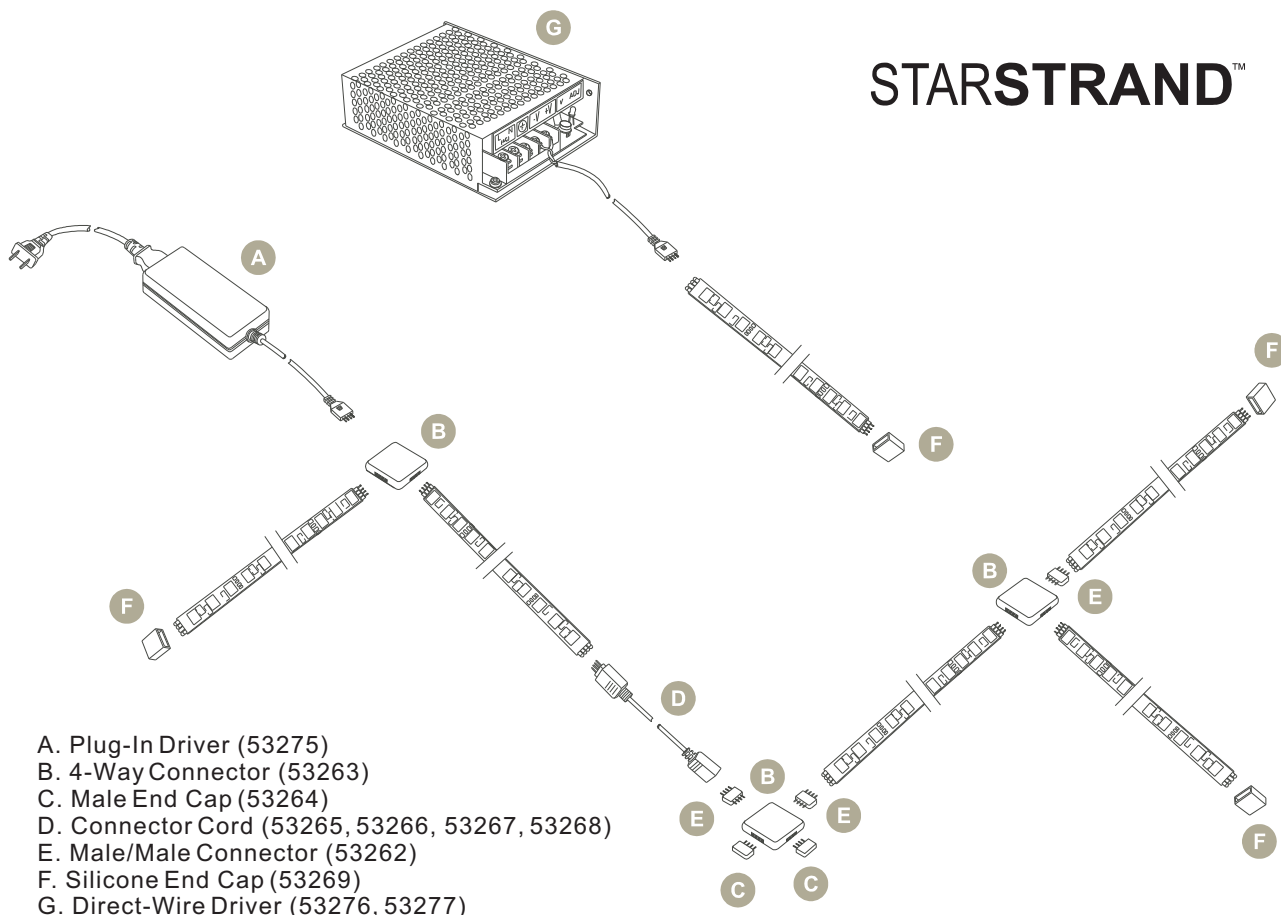

# 12V Instructions & Installation

- Star Strip tapes can be field cut every 2". With the exception of Basic Star, you cannot add power connector or rejoin to start a new section to cut pieces.
- Polarity must be maintained. Each tape has + positive pin. Connectors are marked with + symbol. Positive polarity must be maintained or a section will not light. It is recommended to install all sections and power up to make sure polarity is correct before adhering to surface.
- Use the 4 way connector and 2" sections to get to 90° angles and turns. Interior connector cords can also be used for corners and around obstacles.
- The 4 way connector can also be used to power branched runs up to the maximum. Positioning of the driver is critical to limit the amount of drivers required for each installation. Position driver in middle of or corners of runs and power the 4 way connector.
- Connector cords can be used between the driver and the first tape section as well as between sections. Use connector cords to go around corners also to extend runs.
- Channel and clips can be used to install on irregular surfaces and also areas where tape will be visible and needs to be concealed.
- End caps should be used at every termination whether tape is cut or not.
- RGB controller is necessary for every RGB installation and is installed after the driver and before the first section of Rainbow Star tape. RGB controller will only work on Rainbow Star. There is a maximum 140 watt capacity to this device and a maximum single run of 20'.
- Dimming controller will work on all tapes except Aqua Star. Dimming controller is installed after the driver and before the first section of tape. There is a 140 watt capacity to this device and a maximum single run of 20'.
- Starstrand tape can be installed in any open interior application. Starstrand tape should not be installed inside a cabinet or other enclosure. Starstrand should not be installed in a wet location. Make sure water is kept well away from installation.
- Direct wire drivers should be installed into a U.L. listed wire junction box.

## Conversion Kits

Conversion Kits are available to convert specified semi-flush mounts to invert bowl pendants. Included in the kit is a canopy, chain and extra loop to screw to the top of the semi-flush mount, all in matching finish.

**CKT001AC** Conversion Kit  
Acorn  
*Compatible with 5843MRAC*

**CKT001PE** Conversion Kit  
Pewter  
*Compatible with 5833FTPE, 5843MRPE*

**CKT001CS** Conversion Kit  
Country Stone  
*Compatible with 5843MRCS*

**CKT001SN** Conversion Kit  
Satin Nickel  
*Compatible with 5833FTSN, 5843MRSN & 10120ICSN*

**CKT001OI** Conversion Kit  
Oil Rubbed Bronze  
*Compatible with 5833FTOI, 5843MROI, 5843WSOI & 10120WSOI*

## Diffusers

Diffusers are used to conceal light clusters in pendants and wall sconces. Many of Maxim Lighting's invert bowl pendants have diffusers built in or included. Optional diffusers are also available.

**DIF001WT** Diffuser  
White  
*Compatible with 8025MRAC, 8025MRBK, 8025MRKB, 8025MRSN and 8025WSKB*

**DIF002WT** Diffuser  
White  
*Compatible with 8026MRSN*

## Catalog Legend

Energy Star  
Certified

Installing new ENERGY STAR qualified light fixtures is a smart way to save energy and money. Maxim Lighting is proud to be a ENERGY STAR partner. Look for this ENERGY STAR logo to find Maxim Lighting fixtures that use 1/4 of the energy of traditional incandescent fixtures and last up to 10 times longer. More information on ENERGY STAR can be found on the ENERGY STAR web site at [energystar.gov](http://energystar.gov).

California  
Title 24

All new homes, additions, alterations and most commercial buildings in California must meet minimum energy efficiency standards contained in Title 24, Part 6 of the California Code of Regulations. When you see the California Title 24 symbol next to a Maxim Lighting fixtures, you can be assured that the fixtures complies. More information on California Title 24 can be found on the California Energy Commission web site at [energy.ca.gov/title24](http://energy.ca.gov/title24).
