introduction

For over 40 years Marioni company has been specialised in high-quality products for the decoration of interiors and exteriors. One of the leading structures in Europe for the production of lamp bases, wall and ceiling light fixtures, vases, pot-holders and accessories. The warmth of the design, the fullness of colour, the elegance of the fabrics, always in harmony with ceramic decorations. These are the distinctive features of our collections, in which elegance and functionality are expressed in simple and highly creative forms and inventions of inspired design which shape the raw material with rare sensitivity. Our flexibility of production and artistic flair are set at the disposal of a sophisticated and demanding clientele, highly attentive to the correspondence with the project specifications. The company boasts the ISO 9001-2000 certification.

t u s c a n y

bone china

b

The collection is created through a perfect combination of elements in Bone China, a natural material similar to porcelain but infinitely more transparent, and a structure in chrome-plated metal, to blend superbly with modern decor trends. This line of lighting fixtures transmits visions of shiny and matt, light and shadow, which make it suitable for every purpose, for use in residential, architectural and hospitality environments.

glass

g

Modern lines which are the expression of an authentic and original production philosophy that combines tradition and innovation. In each of the various proposals we can grasp the meaning of the very latest aesthetic trends, along with a distinct quality of construction and design. The glass is mouth-blown and in every single article we can appreciate the uniqueness of the product and its expressive power.

ceramic

Composing, creating, and inventing ever-different solutions for lighting an ambience. The modularity of the geometrical elements gives our imagination the scope to combine shapes, glazes and finishes. Our glazed ceramic collection expresses an elevated design quality in its very simplicity. The use of these lamps is suggested wherever it is desired to transform domestic settings into authentic corners of paradise.

customize and create

We successfully collaborate with an ever growing number of decorators and architects to fine-tune an array of articles that are particularly suitable for the residential and contract projects throughout the world. The warmth of the design, the fullness of colour, the sophistication of the details always in harmony with the decorations: these are the distinctive features of our collections in which elegance and functionality are expressed in simple and highly creative forms. Over 500 designs are created each year by our internal Style Centre, in collaboration with the team of interior decorators and designers, which then emerge as highly customised products that are tested and approved for residential or professional use. Quality of execution, cultured references to the past, constant attention to the very latest decor trends: this, in short, is the philosophy and the approach which has always distinguished us.
